

AGCVGOGGLES

ANSI-certified Anti-Fog Safety Goggles
For Splash/Impact Hazards

Features

- Clear lens and wide viewing area ensures clear vision in almost any work environment.
- Adjustable elastic head strap for a better fit.
- Vents on either side prevent fogging by allowing body heat to escape easily. The vents are only open to the back, to protect the eyes
- Wrap-around contour design fits snugly to protect you from flying debris, dust, airborne particles and chemical splashes.
- Specially designed to fit over top of prescription eyewear.
- Splash and water resistant
- Able to withstand high impact falls and drops

Applications

- Healthcare
- Construction
- Labs
- Fabrication
- Research
- Welding
- Meat Packaging
- Painting
- Food industry
- Woodworking
