

ARMOUR GUARD

- Made of high density polyethylene (HDPE), machine knitted with reinforced hems
- Flame Retardant netting complies with NFPA 701 requirements
- Offers the heaviest weight for debris netting of 100 grams per square meter, while still maintaining the highest 6% FR chemical by weight ratio in the industry
- Made of 100% virgin polyethylene, offering a higher cut resistance than recycled polyethylene
- Small 1/4" Openings catches most serious falling debris
- Ideal for multi-story construction and maintenance sites
- Helps catch objects from falling and injuring someone below
- UV treated to maintain effectiveness in sunlight
