

AGSEERXLEA

Seer 4 1/2" x 5 1/4"
ADF Dual Shade 10 & 11

Features

- Clear Blue View Technology
- Incredibly Clarity
- Enhanced Definition
- Reduced Eye and Neck Fatigue
- 4 Independent Arc Sensors
- Shade 10/11 Button Adjustment
- Sensitivity Hi/Lo Button Adjustment
- Auto-Darkening

Technical Specifications

- **Lens Size:** 4 1/2" x 5 1/4"
- **Weight:** 0.35 lbs
- **Light State/Grinding Mode:** Shade 3
- **Standards Compliance:** ANSI Z87.1
- **Sensors:** 4
- **Operation Temperature:** 23° F to 131° F
- **Storage Temperature:** -4° F to 158° F
- **Country of origin:** China

Applications

- Designed for use with all Arc welding processes such as MIG, MAG, TIG, SMAW, Plasma Arc, and Carbon Arc.
- Manufacturing – Architectural and Structural Metals, Mining, Agricultural, Motor Vehicles, Aerospace, Shipbuilding, and Pipelines
- Construction – Residential, Commercial, Bridges, Dams, Utilities
- Or any other industry where welders may work

Usage Instructions

- Check that the front cover lens and the front lens frame are securely in place.
- Select the shade level and sensitivity using the two button adjustments. Adjust headband so that the helmet is seated on the head as low as possible and near your face. Adjust helmet angle when in the lowered position by turning headgear.
